

Maitri Health Care is now offering our patients secure internet access to their medical records online, so you may view your personal health information at any time or place.

You will be given a user name and password, and will receive periodic updates through your e-mail address when new information or results are posted to the portal.

When you receive the email notifications, you need to log onto the secure portal to see the results or notifications.

Once you are registered for the portal, it is your responsibility to notify us of any email address changes.

Maitri Health Care for Women Presents: **PATIENT PORTAL**

Access Your Health Record
Through The Patient Portal

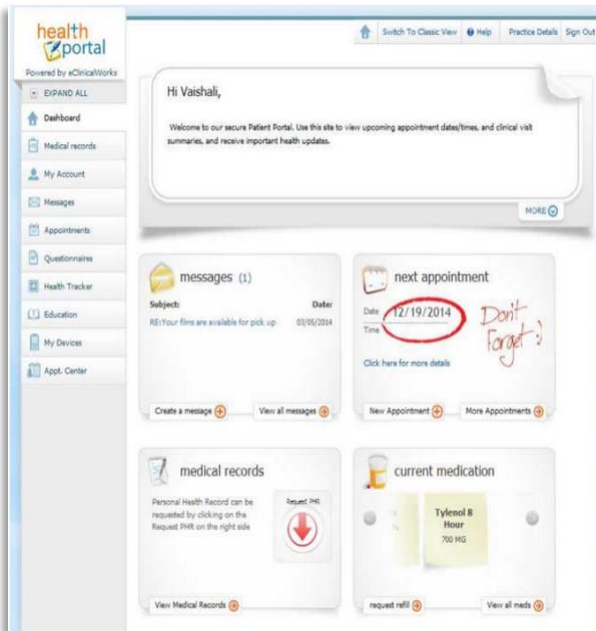

Figure 1 Example of portal home page

Get Web-Enabled

1. Please provide us with a non-work/employment related e-mail address and you will receive an email with a username and password.
2. Visit our website then click the link to the Patient Portal.
3. You can then log onto the portal with your username and password that was provided to your email.

Once you are registered, you can access your personal health record from a Smart Phone or any computer with an internet connection.

Benefits to patients: With improved and efficient communication, patients receive the greatest benefit of all: improved healthcare.

Patient Portal allows you to:

- Set up appointments (for non-urgent issues)
- View your personal health record
- Request prescription refills
- Request referrals
- Send messages to clinical staff for non-emergent questions
- Receive available education materials
- View current and past statements and make payments

All from the comfort of your home!

The patient portal is *not* intended for use in emergencies! If you have any concerns about your health or medical concerns, please contact the nurses through our triage phone line so they can better assist you.
